## Presentación

Lograr una educación de calidad para todos los niños, niñas y jóvenes de Colombia es el camino para avanzar hacia la equidad social, uno de los pilares del presidente Iván Duque. La importancia que tiene la educación para el actual gobierno se refleja en los programas y políticas que el Ministerio de Educación Nacional está desarrollando en todos los niveles educativos. Adicionalmente, reconocemos que la apuesta por la educación es de todos y para todos, por esa razón trabajamos de manera articulada con los actores del sistema educativo.

Estamos convencidos de que la transformación en la educación sucede en la escuela y principalmente en el aula. Por esta razón desde el Gobierno Nacional estamos haciendo los esfuerzos necesarios para generar las condiciones y proveer los recursos que garanticen mayores y mejores aprendizajes en nuestros estudiantes. Los textos escolares son uno de estos recursos que le permiten a los docentes mejorar el acompañamiento en el aula, aumentando las posibilidades para la innovación pedagógica.

Es un privilegio para nosotros entregar a los directivos, docentes, estudiantes y familias de los establecimientos educativos, la colección de textos de matemáticas, lenguaje e inglés, los cuales responden a la diversidad y riqueza de nuestro país y se articulan con los referentes de calidad del Ministerio de Educación Nacional.

Estamos seguros de que este material, junto con las estrategias definidas por cada uno de los programas del Ministerio y las iniciativas que lideran los docentes y directivos docentes en las instituciones educativas, nos permitirán continuar avanzando hacia una Educación de Calidad para todos, hacia el fortalecimiento de los procesos curriculares en las instituciones y hacia la equidad social por la que hacemos equipo con las familias, docentes y, en general, con todas las comunidades.

De manera especial queremos invitar a los maestros a explorar este material y a trabajarlo junto con sus estudiantes y las familias. Estamos convencidos de que los docentes son los líderes de la transformación educativa y serán los protagonistas de este nuevo capítulo de la historia y del futuro de la educación colombiana.

Cordialmente,  
**María Victoria Angulo González**  
Ministra de Educación Nacional

Dear students,

Welcome, this is the Way to go!

The Colombian Ministry of Education, through its Programa Nacional de Bilingüismo, is pleased to introduce *Way to go!*, the series of textbooks created to support your English learning process for sixth (6th), seventh (7th), and eighth (8th) grades. With this textbook, you will be able to learn English in a fun and dynamic way, and to express yourself in English with your teachers, classmates, and friends. This material will guide you through innovative topics related to the Colombian culture and that in other countries by means of varied tasks and projects which integrate 21st century skills, created to prepare you for a globalized world.

“*Way to go!*” is an expression that means you have done something well and that you are proud of your progress. The Way to Go! resources will help you learn English in an effective way in and out of class:

1. **The student’s book:** for you to learn when you are in class (Please do not write on it, because other students will use this book next year)
2. **Your workbook:** for you to have extra practice in class or at home (Yes, you can write on it!)
3. **Audio tracks:** for you to practice listening on the Colombia Aprende website\* at your own pace
4. **Interactive games:** for you to play and learn at the same time\*
5. **Interactive/digital version of the materials:** for you to download or check online\*

In this series, you will find four (4) modules that will help you learn English while you discuss diverse topics like culture, health, democracy and peace, environment, and global citizenship, among many more. These topics have been selected thinking about the next generation of Colombian people living in peace and connecting with each other in English.

We hope you enjoy learning English with your new textbooks, and that you are eager to see the English language as a tool that will open great opportunities today, and in the future.

Welcome to this new adventure of interacting in English with the world! This is the *Way to go!*

# Basic Learning Rights English

8th Grade

1

**Requests and provides information about experiences and plans in a clear and brief manner** using his/her own information or information about familiar situations. Likewise, the student uses familiar vocabulary and may ask for assistance from classmates and/or the teacher. For example:

Laura: Did you send the email to your teacher?  
Daniela: No, I didn't. I am going to send it later.  
Laura: Remember that we have until 3:00 p.m.  
Daniela: I know. I will do it.

2

**Explains in written form different familiar situations and facts in a coherent and simple manner.** The student can establish relationships of addition, sequence, and cause and effect as well as simple comparisons. For example:

### The Water Cycle

Earth is mostly water. Water is needed for all forms of life. Water can be found in snow, glaciers, lakes, streams, and underground. Water can also be in the form of vapor. The sun heats the water and it evaporates into the atmosphere. When the atmosphere is cold, the vapor becomes clouds and then rain or snow.

3

**Recognizes specific information in short oral and written texts on topics of general interest.** The student uses different reading strategies such as: previewing (images, titles, subtitles, etc.), prediction, the underlining of key words and Spanish cognates, and the identification of the general idea of the text (skimming). For example:

### English around the World

People use words to express their ideas, intentions, emotions and information. Currently, the words that people use are often English words. The English language has More than 500.000 words. Most of these words are very unusual: we almost never use them. Some words that English speakers use are taken from different languages. For example:

- Avocado, Barbecue and Totem come from indigenous American language.
- Jungle and Yoga are of Indian origin.
- Kangaroo comes from an aboriginal Australian word.
- Ketchup is Chinese.
- Color is Latin.

Besides, other languages take some words from English too, for instance: Basketball, Tennis, Play Station, Chat, O.K., Bye. Actually, you do not need to travel to USA or UK to learn English because English is Everywhere.

### Reading strategy: Predicting: Key words

How many times do these words occur in the text: English, language (s), word?

### Reading strategy: Predicting: Cognates

Find words in the first paragraph that are similar to Spanish words.

4

**Exchanges information about academic and general interest topics, through simple conversations, dialogues, and role-plays.** In these conversations, the student may express opinions in a simple manner using previously studied models. For example:

Santi: Do you think that recycling paper is important?

Camilo: Yes, because recycling paper saves the trees in the forest.

Santi: How do you save the trees?

Camilo: If we recycle paper, we don't need to cut more trees to make more paper.

Santi: I agree with you. I also think recycling paper is very important.

**Makes recommendations to people in his/her community about what to do, when and how,** based on daily situations in his or her family life, school or local environment. For example:

Tomas: You should organize your free time.  
 Eduardo: Really? How?  
 Tomas: You can make a schedule.  
 Eduardo: Really, is it helpful?  
 Tomas: Yes. I do it and it really helps me to organize my time.  
 Eduardo: Thank you! I will try.  
 Tomas: I think that you really need to do it as soon as possible.  
 Eduardo: Can you help me to do it?  
 Tomas: O.k. Do you want to start right now?  
 Eduardo: It is O.k. I am free!  
 Tomas: First of all, you should know when you are free and what activities you have to do; then, you should plan the activities according to their importance.  
 Eduardo: Oh! That's a good idea! I am going to do a list of my pending activities.

6

**Makes brief presentations on academic topics related to his/her school environment or community** including in the presentation: relevant facts, specific details, and specific vocabulary pertinent to the topic. Prior to giving the presentation, the student prepares and receives advice from his/her classmates and/or teacher. For example:

Good morning! My purpose today is to talk about language. Language is the ability to acquire and use the system of communication. There are about 5.000 to 7.000 languages in the world. When we communicate, we can use words, symbols, gestures, movements, or images. It means that language can be verbal (words: spoken or written) and symbolic (images, gestures, movements, symbols). In conclusion, we use language to interact with other people, to express our ideas, feelings and emotions.

7

**Expresses emotions and feelings about a situation or specific topic related to his/her family or school and presents supporting reasons in a clear and simple manner.** For example:

Sara: I am really sad.  
 Julio: Why? What's up?  
 Sara: My best friend has a serious problem.  
 Julio: What kind of problem?  
 Sara: She has an eating disorder called anorexia and I don't know how to help her.  
 Julio: Oh, dear! Let's talk to our teacher.

8

**Briefly narrates current facts, daily situations or personal experiences orally and in written form.** To do so, the student considers the sequence of actions and the clarity of ideas and receives advice from classmates and/or the teacher. For example:

**My first trip...**

The first time I left my small town was when I went to the capital. We had a school visit to a local newspaper printing plant to understand the process of producing and printing the newspaper. When we finished the activity, we went to a mall. It was exciting for me because I have never been to a mall before. There were some things which surprised me because I have never seen them, such as: the electronic stairs and the elevator. I was afraid first but once I tried them, I really enjoyed it!

2. Our lifestyle is responsible for most environmental problems.
3. In an ecosystem, everything has a specific role to play: if something does not work, it will create imbalance in other parts of the ecosystem.

## The Interconnectedness of Life

Everything is connected. There is a **symbiotic** relationship between all living things. One good example of this relationship is **ecosystems**. These are communities of living organisms that share the benefits of their habitat. They get air, water, and food. **(A)** ...

Our planet is an ecosystem, made up of many other small ecosystems. But human actions have transformed the Earth. Too much **CO<sub>2</sub>** in the atmosphere is changing the climate of the planet. This change creates other conditions that affect ecosystems.

**(B)** ... We create pollution. We build roads, kill animals, cut down trees, pollute the soil, air and water, and consume resources without thinking of the effects. Forests are necessary to purify the air. Trees absorb **CO<sub>2</sub>** and release oxygen. They also maintain the water cycle by releasing water vapour into the atmosphere. The forests are the **habitat** of many organisms and animals. They provide food and water. Clearly, **deforestation** is our biggest problem. **(C)** ...

A healthy ecosystem allows many different species to live together. This is **biodiversity**, and it is **sustainable** when it is capable of providing the necessary conditions for all species to live and reproduce.

6.  **Write»** Match the definitions with the words in bold in the article in exercise 5.

When people pollute rivers, ...

Now Silvio would like find another place to live, but he's not interested of living near humans because they destroyed its habitat.

You are doing some good things but <b>it's important to</b> reduce your eco-footprint a bit more. <b>Start by</b> making more changes to reduce consumption of water and energy. 4.  **Read »** Read the magazine article. Match each paragraph (a–c) with a picture (1–3).

### The Fantastic Three Rs

**It's time to start** reducing your eco-footprint. You can do it **by following** the three Rs: Reduce, Recycle and Reuse.

a. When you reduce, you use only what you need. **Start by reducing** the things you don't really need. So, **stop buying** on impulse. When you are shopping, try to buy food from local markets so you reduce the amount of packaging you use (you get more packaging from supermarkets). At home, you can reduce your consumption of water **by taking shorter showers** or **recycling the water** from the washing machine to flush the toilet.

b. When you recycle, **you can make** new products. There are a lot of materials that you can recycle if they're in good condition. It's a good idea to use plastic bottles as plant pots. You can use waste paper for your art projects. And don't forget to use the paper on both sides. To recycle, you just need some creativity.

c. There are a lot of things we can reuse. Stop buying a bottle of water every day. You can refill it from the tap in some cities and use it many times. **Stop throwing away** bags and clothes. Reuse the bags you have at home and give the clothes to other people. You can reuse things more than once.

## Travelling Eco-footprint

**Mayra from Valledupar**

Valledupar is very hot, so it's important to plant trees because they provide oxygen and shade. We all plant trees near the house because they keep the area cool. When you come to Valledupar, you can help by turning off the air-conditioning when you leave your hotel room.

How much do you know about trees?	T	F
a. Every year people cut down 13 million hectares of the world's forests.		
b. Forests release CO <sub>2</sub> and absorb oxygen.		
c. The only cause of deforestation around the world is agriculture.		
d. Trees help prevent soil erosion.		

8.  **Read »** Read this article by Dr Ramón García about biodiversity and forests. Check your answers to the quiz in exercise 7.

There are many reasons why we need to protect our forests. They make the landscape beautiful and they are home to great biological diversity. Forests contain 80% of all the world's biodiversity and are the natural habitat of animals, plants and micro-organisms. In addition, this diversity provides important natural resources that sustain our lives by releasing oxygen, absorbing CO<sub>2</sub>, preventing soil erosion, conserving water and moderating temperatures. Sadly, the growth of the human population and our needs for housing, fuel, paper, food and many other things have a negative impact on the forests of the world. According to FAO\*, the world loses 13 million hectares of forest every year.

We need to support good practices that protect and restore forests by reducing the demand for paper, creating protected natural reserves, controlling agricultural development, and stopping illegal mining and logging. However, the most powerful way to achieve all these solutions is by educating people. We need to understand that the exploitation of forests can bring immediate benefits now, but it will destroy opportunities for future generations.

7.  **Speak »** Find someone in your class who agrees with the opinions. Find out their reasons for agreeing.

### Find someone who ...

- a. thinks respect is the most important eco-value
- b. strongly believes it's wrong to kill animals for food
- c. is sure that restoring forests is the best environmental practice
- d. agrees with the need to stop using private cars

I agree with you that respect is very important, but I believe cooperation is more important in our city.

Because when you live in a big city, you need cooperation to build things.

8.  **Speak »** In groups, read the text and discuss the city's dilemma. What is your opinion? Who do you agree with, A, B or C?

You live in a coastal town. Fishing is a very important economic activity, but in recent years the number of fish has decreased. This has had a negative impact. A foreign company is interested in building a port to export coal by ship. It has offered to buy a part of the beach for this project. The town has to decide what to do.

**A** I have no doubt it's wrong to sell the beach because the transportation of coal will pollute the coast.

**B** I think it's a good opportunity to make money to build more tourist facilities.

**C** I'm sure it's a good idea to sell but it's important to make the company promise they will not pollute the beach.

# Preparing Your Task » Local Problems Are Global Problems!

1.  **Read »** Match the sentences (a-c) with the correct photo (1-3).

- a. There is a very big island of rubbish floating in the ocean.
- b. Plastic can kill marine animals.
- c. People kill sharks for their fins.

15 2.  **Listen »** Listen and decide if the sentences are true (T) or False (F).

- a. There is an island in the ocean made of rubbish.
- b. Fishermen kill sharks because they are dangerous.
- c. Supermarkets don't want people to pay for plastic bags.

3.  **Read »** Read the text. Select the correct form of the verbs in italics.

I <sup>a</sup> *have* / *haven't* no doubt that we all share the benefits the ocean provides. We all *affect* its preservation in a positive or negative way. It's wrong <sup>b</sup> *to think* / *thinking* that we cannot do anything to find a solution. The oceans constitute 80% of the surface of the planet. They are important because they *regulate* global temperatures and capture CO<sub>2</sub>. It's important <sup>c</sup> *to protect* / *protecting* the habitats of many plants and marine animals.

There are two big problems for the oceans: pollution and overfishing. Pollution is a serious problem. Animals sometimes eat plastic because they think that it's food, or they get trapped in plastic bags or fishing nets.

I <sup>d</sup> *am agree* / *agree* with people who want to reduce or prohibit industrial fishing because it <sup>e</sup> *is not* / *does not* good practice. We need to stop over-exploiting the ocean's resources.

## Magdalena River

by Gloria Torres

Dead fish in the Magdalena River.

The Magdalena River is the most important river in Colombia. It has permitted the cultural and economic development of many towns and cities that are near it, but it has a very serious environmental problem.

The Magdalena River provides drinking water and food. It is also used to generate energy. But the river is now very polluted. The number of fish is decreasing, and there is a lot of deforestation around the river.

We need to do something to restore its biodiversity, protect its waters and help the people that make a living from it.

Make the <sup>a</sup> \_\_\_\_\_ more specific. What is the problem with the river?

A <sup>b</sup> \_\_\_\_\_ is not a description of the photo. It tells the story behind the picture or adds interesting information.

The <sup>c</sup> \_\_\_\_\_ should explain the specific environmental problem and the causes of this problem.

The <sup>d</sup> \_\_\_\_\_ should add interesting facts. For example, all rivers provide drinking water. But how many people benefit from the river as a drinking water resource? Research!

This part of the main body should say how to restore the river. It can include the opinion of an expert. Find a <sup>e</sup> \_\_\_\_\_.

5.  **Write »** Rewrite the article. Use the suggestions in exercise 4, the extra information below and your own ideas.

- Large numbers of fish die every year in the Magdalena River because pollution reduces the level of oxygen.
- According to the Nature Conservancy Agency, 38 million people benefit from its water.
- Pablo Garavito, environmental engineer: 'Local people and industries need to take responsibility for cleaning up the river. Without this important contribution, there is no solution.'

6.  **Write »** Look back at your research in Unit 1, lesson 1, exercise 8 and lesson 3, exercise 9. Complete the chart with notes from your research. Then write a similar article, following the suggestions in exercise 4.

What's the problem?	Who is involved?	Where is it?	How can we solve the problem?

7.  **Read »** Read the letter from a student to an international foundation. Label the letter with parts a–h.

- a. Supporting information
- b. Name and address of sender
- c. Opening salutation
- d. Request for help
- e. Opening paragraph (statement of purpose)
- f. Closing salutation
- g. Concluding paragraph
- h. Name, company and address of recipient

**Study Tip**

Writing a letter is a very important skill. Formal letters have specific and important elements.

Ms Claire Smith  
World Ecosystems Foundation  
210 Manchester Street, London SW2 1TJ, United Kingdom

Dear Ms Smith,

I'm writing to you about the illegal mining that happens in my community. We need to stop illegal mining now because it is affecting our environment and our health.

Every day the industry throws large quantities of mercury and other chemicals into streams and rivers that are our sources of fresh water. According to the Mining and Energy Ministry's latest report, 35% of the protected area near the River Tamaña has now been eroded as a result of illegal mining activities. We are concerned about our health, deforestation and the destruction of local ecosystems in general.

We would like to ask for your international support because we have heard about your initiatives and your commitment to helping communities like ours. We can all work together to make sure that there is a healthy environment for everyone.

In conclusion, we strongly believe it is time to stop these activities before it is too late for the people and the environment. The area is a beautiful rainforest with amazing biodiversity, and it belongs to all of us.

Yours sincerely,

8.  **Write »** In groups, think of an environmental problem in your town or city. Write a similar letter to the local authorities expressing your concern. Include:

- the correct names and addresses
- opening and closing salutations
- an opening paragraph
- supporting information
- a request for help
- a concluding paragraph.

## Respect the earth

*Save energy to be green!  
Respect the earth and keep it clean.  
Save energy to be green!  
Respect the earth and keep it clean.*

Sustainable energy will help us restore,  
But we can't afford to pollute any more.  
Pesticides and open mines  
I strongly believe will destroy us in time.

Be sure to recycle, wherever you are,  
And use your bike instead of a car.  
Sign a petition in this magazine,  
To conserve biodiversity.

*Save energy to be green! ...*

We must protect our habitat.  
We need conservation, and that's a fact.  
Deforestation means losing our trees,  
Water pollution's destroying our seas.

Believe in the cause and join a campaign.  
Ask your friends to do the same.  
Have no doubt and cooperate.  
Make a change, before it's too late!

Dear Sir,

I am writing to you because I am interested in protecting the forests of Colombia. Forests cover 53% of the total area of our country, but deforestation has advanced quickly in recent years. It's <sup>a.</sup> *important* / *wrong* to find ways to make companies restore the forests the country is losing. It's <sup>b.</sup> *wrong* / *a good idea* to cut down an area of trees and not restore the forest, just because Colombia has a lot of forests. I think it's <sup>c.</sup> *necessary* / *bad practice* to protect nature reserves all around the country because the forests are home to a variety of plants and animals. It's <sup>d.</sup> *important* / *not necessary* to remember that Colombia has the seventh largest area of tropical rainforest in the world, and is second in terms of biodiversity.

Yours faithfully,  
Ana Rodríguez

## Reading

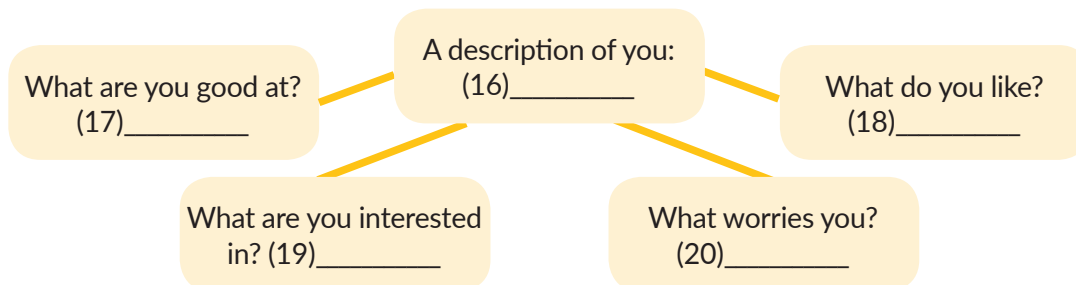

Read the following text. Circle the best answer for each question. There is one example.

In recent years, climatic phenomena such as El Niño and La Niña have increased the lack of water in several countries. Fog catchers are nets between two wooden poles that capture water without polluting the environment. Scientists are starting to think that fog catchers can help us collect water in an efficient way. They are especially effective in deserts, mountains and other places that have a lot of fog. In the Atacama Desert in Chile, fog catchers are used for water supply and agriculture with wonderful results. A team of engineers from the Massachusetts Institute of Technology (MIT) is working to improve fog catchers. Scientists believe that, because they are easy to assemble and effective, fog catchers could become a globalized solution for water supply and agriculture all over the world.

By Jairo Leal

The Colombian Ministry of Health has found that over half (52%) of the <sup>a</sup>\_\_\_\_\_ of our country is <sup>b</sup>\_\_\_\_\_. The study confirms that there is also a smaller group of 15% that is obese.

The figures from FUNCOBES (Colombian Obesity Foundation) show that one in two people are overweight. This is more common in people over 45 years old who are living in cities. The Ministry also says that one child in six is overweight.

Health specialists agree that the information is worrying, especially because <sup>c</sup>\_\_\_\_\_ people continue to eat junk food and drink fizzy drinks without taking more exercise to use up the extra energy.

Sara Rojas, an obesity specialist at FUNCOBES, says: 'It is sad to see that Colombian

<sup>d</sup>\_\_\_\_\_ do not worry about their <sup>e</sup>\_\_\_\_\_ until they develop serious illnesses like diabetes, heart disease or strokes. These illnesses may be prevented if we drink more water, <sup>f</sup>\_\_\_\_\_ more fruit and vegetables, eat less junk <sup>g</sup>\_\_\_\_\_ and take more exercise.'

9.  **Speak »** Look at the bar chart. Explain the facts from FUNCOBES in your own words.

## 5. Read »

Work with a partner. Student A, read part 1 of the article. Student B, read part 2. As you read, match each paragraph (1–4) with one of the questions (a–d).

- What kind of treatment does a person with an eating disorder need?
- What is an eating disorder?
- What causes eating disorders?
- What are some symptoms and behaviour?

### Eating Disorders by Angie Roa

#### PART 1

1. \_\_\_\_\_

An eating disorder is a serious illness. It is characterized by extreme and dangerous eating behaviour. This can have very serious physical and psychological consequences. This illness affects all kinds of people: young and old, men and women, rich and poor. It is often difficult to know when someone has an eating disorder – you can't always tell by looking at them.

2. \_\_\_\_\_

Health specialists are not completely sure about the causes of many eating disorders. There are many different reasons, such as bad eating habits, family history, attitudes and emotions, a person's income, and even where they live. However, some things are clear: eating disorders are mainly the result of unhealthy eating habits, the desire for an ultra-thin body and very low self-confidence.

#### PART 2

3. \_\_\_\_\_

It is very difficult to find out if a person has an eating disorder. However, some typical symptoms include losing or gaining weight drastically, vomiting, excessive fatigue and emotional distress. In addition, some typical behaviour includes paying excessive attention to body weight and shape, not sleeping well, getting stomach aches and avoiding social situations, especially for eating out.

4. \_\_\_\_\_

Fortunately, it is possible to treat most eating disorders if they are diagnosed in time. People can be helped if they accept that they have an eating disorder, and get the necessary nutritional and psychological treatment. People with eating disorders should learn to eat well, change bad eating habits and get help from their family. They should also accept their bodies the way they are.

**In conclusion**, eating disorders are complex illnesses, but treatment is possible. However, people need a trained health specialist to diagnose and treat these disorders.

## 6. Write »

Match the questions from exercise 5 with the one-word paragraph headings. Then note down the main ideas in each paragraph. Ask your partner for the missing information.

- |                        |                     |
|------------------------|---------------------|
| 1. Introduction _____? | 3. Symptoms _____?  |
| 2. Causes _____?       | 4. Treatment _____? |

**7. Write »** Write a paragraph summarizing the article in your own words. Use your notes from exercise 6.

- a. Write one sentence as an introduction with the main idea.
- b. Write three sentences about the main ideas in paragraphs 2, 3 and 4.
- c. Write a concluding sentence for your paragraph, starting with *In conclusion ...*
- d. Exchange your paragraph with a partner. Evaluate your partner's paragraph. Use the Evaluation Checklist.

**Evaluation Checklist**

Does your partner:

organize his/her paragraph correctly?	Yes <input type="checkbox"/>	No <input type="checkbox"/>
summarize the main ideas?	Yes <input type="checkbox"/>	No <input type="checkbox"/>
use his/her own words?	Yes <input type="checkbox"/>	No <input type="checkbox"/>
include a concluding sentence?	Yes <input type="checkbox"/>	No <input type="checkbox"/>

**Study Tip**

When you summarize a text, identify the most important ideas, and write them in your own words.

**8. Group Work »** In groups, create a prevention plan for a specific eating disorder that you choose to research. The purpose is to raise awareness about the disorder at your school's Health Fair.

**Step 1 - Research**

Find out about existing eating disorders in your school.

Select an eating disorder and research its:

definition

causes

symptoms

treatment

Decide what research methods you will use – for example, surveys and interviews, internet searches. Look for different sources of information.

Make a note of all the information you find.

**Step 2 - Organization**

In your group, put together all the information from your research.

Decide what you want to include and how you would like to present it. You can use ideas from this lesson, the results from your surveys or interviews, posters, recipes or any other activity.

Plan how to organize and present your information. Use a mind map, table or other diagram to organize your ideas.

**Step 3 - Presentation**

Together, write an informative text to raise awareness about the eating disorder you researched. Include information about the research and about the disorder. Make sure you include ideas for how to recognize the disorder, and what people can do if they are worried about any of their friends.

**Travel Blog: Colombian Cuisine**

Posted by James Lee, August 31<sup>st</sup>.

I am a Canadian traveller and I have just come back from Colombia. I loved my stay there. The food is a gastronomical adventure! I really recommend the paisa platter (*bandeja paisa*). It's a <sup>a</sup>\_\_\_\_\_ of protein because it has eggs, red beans, fried pork and minced beef. It <sup>b</sup>\_\_\_\_\_ with rice and slices of fried plantain called *patacón*. It's served with avocado. Avocados <sup>c</sup>\_\_\_\_\_ a lot of vitamins and minerals. Personally, I love this dish because it mixes a lot of flavours and nutrients. I suppose fried pork, minced beef and eggs <sup>d</sup>\_\_\_\_\_ a lot of cholesterol, so this dish is not healthy if you eat it every day or if you are not very active! But if it's your first time in Colombia and you are in Antioquia, you should try it!

**COMMENTS**

Lorie, 15 September, 2016 at 3:24 pm  
I'm a nutritionist. I agree the mix of flavours sounds interesting: eggs, avocados and pork are great sources of protein. But unfortunately, it's very <sup>e</sup>\_\_\_\_\_ in fat. Maybe you should include more vegetables and use a different cooking method for some ingredients.

I hope you come back to Colombia soon!

<b>Store</b> in the fridge for up to five days.	When ready, <b>cut</b> into bars and let them cool.	<b>Bake</b> at 150°C for 25 minutes or until light brown.	<b>Mix</b> all the ingredients together.	<b>Shape</b> the mixture into a large bar or rectangle.	<b>Peel</b> and <b> mash</b> the bananas.

## In Context » Everybody Is Different!

1.  **Speak »** Discuss the photos with a partner. Which photo best represents the society we live in?

A

B

### 21st Century Skills

- Critical Thinking

How do you think photo B influences how we feel about our bodies?

2.  **Read »** Read the three texts from a wiki. Match the questions with the correct text.

- a. What is *body image*?
- b. Why is self-esteem important?
- c. How does the media affect people negatively?

**1** In our lives, we all interact with different kinds of media which provide information and messages that influence our perception of reality. This influence can turn negative if we cannot process the messages in a critical and healthy way. First of all, if we believe in the ideal of a 'perfect body' that the media promotes, we will be **frustrated** at not being beautiful enough. This can create a negative body image. Secondly, if we let the media tell us how to be **happy** and **successful**, we will spend a lot of time, money and energy going after the wrong ideals and values.

**2** The picture we create in our mind of how we look is called *body image*. But this perception is not just an image or an idea. It is a feeling that influences our personality and our behaviour. If you have a positive body image, you will feel good about who you are, not only about how you look. If you are unhappy with your body image, this can affect your self-esteem and create negative feelings. If those feelings continue, they can turn into serious illnesses like eating disorders or depression.

**3** The value you attribute to yourself is your *self-esteem*. It is important because it is something that influences your personality and your emotions. If you have high self-esteem, you will believe in yourself and be **confident** in all areas of your life. On the contrary, if you have low self-esteem, you may be **unhappy**, **anxious** or extremely **self-conscious**.

### 3. Read » Match the conditions with the results.

**First**, we should remember that if we have good self-esteem, we feel confident about who we are. We don't feel the need to criticize ourselves all the time. **In addition**, we should appreciate ourselves for who we are, not how we look.

Our looks are not as important as our personalities, our talents and our values. When we truly appreciate ourselves, we don't spend a lot of time in front of the mirror comparing ourselves with others. Instead, we exercise and eat healthy food because we care about our health. **To sum up**, we respect ourselves and others because we believe that to be an individual is beautiful.

10.  **Speak »**

In groups, prepare a similar mini-presentation about the connection between body image and eating disorders. Look back at the story you created in lesson 1, exercise 10 and your ideas in exercise 8 of this lesson.

Note down something you learned that was:	The Roma people	The Palenqueros

## A The Roma People

---

Many Colombian people do not recognize them as citizens of the country. Roma people are 'invisible' Colombians, a minority group that live in poverty. They need health care, better nutrition and education. There are about 5,000 Roma people in Colombia.

---

Roma people are nomads – they travel from one place to another. They are good artists. In their culture singing, dancing and playing musical instruments are very important. The women sometimes sell shoes or kitchen utensils. They are also fortune-tellers.

### 1. Origin and location in Colombia

Roma, or *Rom*, people arrived in Colombia in the 16<sup>th</sup> century from European countries such as Spain and Portugal. *Rom* originally meant 'men of low class who live on singing and dancing'. They live in Bolívar, Antioquia, Tolima and Nariño.

---

Girls and boys get married when they are teenagers. Roma people don't value individuality because they belong to a clan. They only learn to read and write. They are bilingual: they speak their native language, Romany, and Spanish.

## B The Palenqueros

---

The women go to Cartagena every day to sell fruit and sweets. They wear colourful clothes that represent the colours of the rainbow, and to show they are happy. Women carry water from *casimbas* (holes near the river where they store the water). The men often work on farms.

---

The Palenqueros suffer from racial discrimination. Many don't know how to read or write. They need more support from the government because they don't have electricity or running water. They live in extreme poverty.

---

They speak *Palenquero*, a language that combines Spanish and African languages. They have a ritual for the dead called *Lumbalú*. They don't cry. They sing, play the marimba and the drums, and dance around the dead person to say goodbye.

---

The Palenqueros are descended from African slaves. Today, the Palenqueros form a group of 3,500 inhabitants of Palenque de San Basilio, which is located in Montes de María, three hours away from Cartagena. In 2005, UNESCO declared San Basilio a 'masterpiece of the oral and intangible heritage of humanity'.

**Stop Verbal Abuse**  
By: Cecilia Rodríguez

According to a statistical report by DANE\*, in recent years verbal abuse has <sup>1</sup> \_\_\_\_ (increase) in many Colombian schools. More students have <sup>2</sup> \_\_\_\_ (be) disrespectful to their parents, teachers and classmates. Over the past decade, many students have <sup>3</sup> \_\_\_\_ (become) aggressive, and have <sup>4</sup> \_\_\_\_ (find) it difficult to use polite language. They often use offensive language to establish status and power. Verbal abuse includes name-calling, insults and threats. These types of verbal abuse have <sup>5</sup> \_\_\_\_ (destroy) students' social relationships. Table 1 shows the results of a survey conducted by DANE with 5,000 students around the country. The students were asked if they have <sup>6</sup> \_\_\_\_ (use) verbal abuse in their school lives.

The graph shows the percentage (%) of students who admit using these types of verbal abuse.

\*Departamento Administrativo Nacional de Estadística

So how can students avoid verbal abuse? How can we stop them being offensive to their classmates? How can they become model citizens and use more positive, less abusive language? How can parents educate their children at home to reduce offensive language?

### The Power of Forgiveness

According to statistics, many Colombian people are intolerant and violent because they don't forgive their relatives, friends and neighbours easily when they have a fight or an **argument**. Colombians need to start making a change. If Colombians learn to forgive and **reconcile** their differences, they will reduce cruelty and violence in their daily lives. Here are some useful tips for why you should forgive the people who have hurt you and how to do this.

1. \_\_\_\_\_

If you really want to forgive someone who hurt you, you have to forget your feelings of **resentment**. Resentment can destroy your inner peace. For your own **well-being**, give yourself time to **calm down**. Talk about your resentful feelings to a friend or write them down. Soon you will feel better and will forgive more easily.

2. \_\_\_\_\_

If you feel you are a victim of intolerance, think how that violent experience taught you a lesson for life. You can learn how to choose good friends and how to **trust** other people. You can also learn about respect.

3. \_\_\_\_\_

If you try to understand the other person, you will learn that he or she is not all bad. Maybe that person never meant to hurt you. It was just a misunderstanding.

4. \_\_\_\_\_

Find the right moment to speak with the other person. Let that friend or relative know how you feel. Listen to how they feel, and accept their apology. You can also say you are sorry.

Forgiveness has the power to **cure** body and soul. If you forgive, you will make people feel better and more emotionally secure. You will also feel better and will be someone who promotes peace.

2.  **Read »** Look at the words in blue in the text. Match them with a word or expression (1–7) that has a similar meaning.

- 1. make better

# Preparing Your Task » Solving Cultural Misunderstandings

## 1. Read »

Charlie, from England, is planning to visit his friend Andrés in Colombia. They are sharing some cultural information about their countries. Complete the two emails with the words in the boxes.

a. cultural tip b. will feel c. will teach you d. weddings e. will have

Hi Charlie,

If you're planning to come to Colombia, you <sup>1</sup> \_\_\_\_\_ to understand some cultural information. For example, many Colombians celebrate birthdays, <sup>2</sup> \_\_\_\_\_, baptisms and graduations in a very noisy way. Parents, cousins, friends and grandparents dance salsa and vallenatos until 4.00 a.m. Many foreigners think that we party all the time. However, some Colombians prefer to travel and are quieter.

Another <sup>3</sup> \_\_\_\_\_ is that if you spell the word Colombia incorrectly as Columbia, many Colombians <sup>4</sup> \_\_\_\_\_ offended. Foreigners sometimes confuse the name of our country with the city of Columbia in the United States. It may be silly, but some people can get annoyed.

Anyway, when you come to Colombia, I <sup>5</sup> \_\_\_\_\_ more about my country.

I look forward to seeing you soon.

Andrés

f. will need g. will see h. misunderstandings i. island j. inhabitants

Hi Andrés,

We British also experience cultural <sup>6</sup> \_\_\_\_\_. For example, most people think that all British people are English, but that's not true. Great Britain is the name of an <sup>7</sup> \_\_\_\_\_ containing three different countries: England, Scotland and Wales. The United Kingdom (UK) also includes Northern Ireland. Only people from England are English. The <sup>8</sup> \_\_\_\_\_ of these countries can be very different.

Everyone thinks that if you come to England you <sup>9</sup> \_\_\_\_\_ an umbrella because it rains every day. Well, it can be warm and sunny a lot of the time. People also think that the British are cold and a bit serious – some of us are, but some of us like to party as well!

Anyway, I think that if we get to know each other's culture, we <sup>10</sup> \_\_\_\_\_ our own cultures with different eyes.

See you soon at El Dorado airport in Bogotá.

Charlie

## Reading

Read the following passage. Choose *True*, *False* or *Not enough information* according to the text. Write your answers in the box.

Afro-Colombian is a term that applies to Colombian citizens that are direct descendants of Africans. Back in the early 16th century, Africans from countries like the Republic of Congo, Angola, Ghana and Mali were brought to Colombia to work as slaves in the gold mines, sugar cane plantations and cattle ranches. When they arrived, many Afro-Colombian slaves began to fight for their freedom. They formed towns, called Palenques, where black slaves who escaped their oppressors could live in freedom. In fact, Afro-Colombians played a very important role in the fight for independence from Spain, with more than half of Simón Bolívar's army being of African descent. Finally, in 1851, slavery was formally abolished in Colombia but, unfortunately, life didn't immediately improve for the Afro-Colombians. Many were forced to live in the jungle regions of the country to protect their cultural traditions, because the Colombian government wanted them to be more like Europeans. Today the situation has improved. However, Afro-Colombians continue to be displaced by armed groups that want to take their land for farming and mining purposes.

**Do Celebrities Spend Their Money Foolishly?**

They earn a lot of money but does this mean that rich and famous people should spend their money so extravagantly? For example, the famous singer and fashion designer Victoria Beckham has spent over \$2 million on handbags! Justin Bieber is famous for spending his money irresponsibly: he has even rented a house not to live in but just to have parties in. Beyoncé bought an aeroplane for her husband Jay Z for \$47 million and Cristiano Ronaldo has spent \$15 million on sports cars. What a waste of money; he can only drive one at a time! I wish these people would not waste their income so carelessly when they could spend it responsibly.

Although Victoria Beckham earns a lot of money, I think she has spent it **foolishly**. She has wasted a lot on handbags!

I don't agree! She works in fashion. It's her own money; she can spend it how she wants.

## What Would Life Be Like Without Technology?

Our lives in the 21st century have changed because of the <sup>1</sup> \_\_\_\_\_ of information and communication technologies such as the internet, smartphones and smart televisions. Life has become easier with technology, and we use it every day to communicate, work and <sup>2</sup> \_\_\_\_\_ ourselves. If the technology didn't exist, people's lives would be more difficult. Life would be the same as it was at the beginning of the 20th century. For example, if <sup>3</sup> \_\_\_\_\_ and satellite navigation didn't exist, we would have to use a paper map or stop people and ask for directions. If we didn't have the internet to help us do our homework, we would have to go to the <sup>4</sup> \_\_\_\_\_ more often. If email didn't exist, we wouldn't be able to

communicate with the world so quickly, and we would have to wait weeks for letters and postcards to arrive from friends or relatives living in other countries. We also use technology for entertainment. With electronic devices like smartphones and smart TVs, we can play video games, listen to music, see a good <sup>5</sup> \_\_\_\_\_, and even shop online from our homes. - b. receive and send emails?
- c. download music?
- d. make friends on Facebook?

What would you do if you couldn't download photos from the internet?

A.

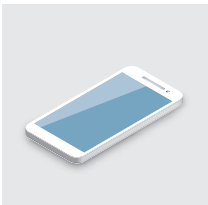

If I couldn't download photos from the internet, I would take pictures with a camera and print them in a photo shop.

6.  **Speak »** If you had \$2,000,000 COP, which technological devices would you buy? Justify your answer.

## Be careful with your money

*Be careful, be cautious with your money,  
'Cause when it runs out, it's not funny!  
It might be liberating at the time,  
Although you'll regret it  
When you're left behind.*

I'm wearing my hoodie and I'm going into town.  
I bought a selfie stick to take pictures all around.  
I've foolishly spent my money on a tent,  
Instead of wisely paying for my rent.  
It is very cosy with a beanbag chair,  
And there is also a telescope in there.

*Be careful, be cautious with your money, ...*

I use the internet cautiously;  
I only chat to people who are nice to me.  
I go to the gym to have a fun time,  
Instead of spending all my time online.

I download music on my laptop,  
And I use my headphones quite a lot.  
I bought some sunglasses unnecessarily,  
I don't need them but they look cool on me.

## A documentary film to present information on teenagers' shopping needs and habits.

A documentary film is a short film that shows a real situation or event. It usually has a narrator or reporters who describe the event and interview people.

1. In groups, collect the information and materials you created in this module. Use the checklist to make sure you have everything you need.

Unit 1 Sensible shopping	Unit 2 Controlling expenses!	Unit 3 Extreme consumption
<p><b>Lesson 2, exercise 6</b> Quiz: Are you a shopping addict? <input type="checkbox"/></p> <p><b>Lesson 3, exercise 8</b> Questionnaire about students' shopping habits. <input type="checkbox"/></p>	<p><b>Lesson 2, exercises 5-6</b> Interview teenagers and report on their monthly expenses. <input type="checkbox"/></p> <p><b>Lesson 3, exercises 10-11</b> Survey and interview on adolescents' needs and spending habits. <input type="checkbox"/></p>	<p><b>Lesson 3, exercises 8-9</b> Chart based on survey results and video report. <input type="checkbox"/></p>

2. Look at the six stages of making a documentary film. Decide who in your group will work on the different stages.
  - a. Choose a topic for your film (e.g. teenagers' shopping needs).
  - b. Write interview questions to ask people about the topic.
  - c. Decide who will be the interviewer/reporter. Start filming. Use a camera or smartphone. Interview as many people as possible about the topic.
  - d. Watch the interviews and note down the results. Create a chart or infographic to show the results.
  - e. Prepare a script for the narrator. Think about what you will say to introduce the topic and the results of the interviews.
  - f. Edit the film.
    - Decide how you will organize the interviews.
    - Include some images of your school or community.
    - Add a title at the beginning.

# module 4 // Project

3. Look at the two suggestions for ways to show your film. Discuss the advantages and disadvantages of each one: showing your film in the school theatre/lecture room or uploading it to the internet. Can you think of other ideas?

## Option 1: Show your film in the school theatre or a lecture room

1. Select a date and book a room.
2. Book the equipment you need (e.g. TV, digital projector, computer).
3. Decide how to invite the school community to see the film. What information will you give them about the film?
4. On the day, welcome the audience and introduce the group who made the film.
5. Show the film.
6. After the film, have a 'question and answer' session with the audience.

## Option 2: Upload the film to the internet

1. Upload your film to YouTube or a similar social media website.
2. Visit classrooms in your school and invite students and teachers to watch the film online. Make sure you give them the correct link!
3. Invite students to click 'like' (👍) and to write positive comments about your film.
4. Reply to the comments.
5. Keep a note of the number of people who watched and 'liked' the film, and the comments.

4. In your groups, discuss the questions or comments and any other feedback from your audience.
  - a. What was good about your film?
  - b. What could you improve?
  - c. What would you do differently in future?

## Reading

Read the following text. Choose the best answer, *True* or *False*, for each question.

We are now living in a 'digital world'. Everyone has a mobile phone, and people are always looking for the newest model. Every teenager depends on their phone not only to communicate, but also to play games, check their social networks, listen to music, use the internet, etc. Every day, new terms related to communication appear: 'texting', 'messaging' and 'chatting' are some of the words that refer to communicating using a mobile phone. Although schools are now aware of this, their opinion on this issue seems to vary. Some schools, for example, accept the use of mobile phones and allow them to be used for homework. Other schools prohibit the use of mobile phones and students use them in secret. Should schools have a balanced view on mobile phone use and take advantage of these new forms of communication and words? Of course. If this was the case, students would feel free but at the same time only use their mobile phones when it is appropriate.

	True	False
0. The term 'digital world' means that there is new technology such as mobile phones that everyone uses.		✓
11. According to the article, people don't use their mobile phones.		
12. According to the article, teenagers use their phones only to talk.		
13. New ways of communication and words related to communication have appeared because of new technology.		
14. All schools accept the use of mobile phones in class.		
15. The article says that schools shouldn't allow students to use their mobile phone in class.
