Presentación

Lograr una educación de calidad para todos los niños, niñas y jóvenes de Colombia es el camino para avanzar hacia la equidad social, uno de los pilares del presidente Iván Duque. La importancia que tiene la educación para el actual gobierno se refleja en los programas y políticas que el Ministerio de Educación Nacional está desarrollando en todos los niveles educativos. Adicionalmente, reconocemos que la apuesta por la educación es de todos y para todos, por esa razón trabajamos de manera articulada con los actores del sistema educativo.

Estamos convencidos de que la transformación en la educación sucede en la escuela y principalmente en el aula. Por esta razón desde el Gobierno Nacional estamos haciendo los esfuerzos necesarios para generar las condiciones y proveer los recursos que garanticen mayores y mejores aprendizajes en nuestros estudiantes. Los textos escolares son uno de estos recursos que le permiten a los docentes mejorar el acompañamiento en el aula, aumentando las posibilidades para la innovación pedagógica.

Es un privilegio para nosotros entregar a los directivos, docentes, estudiantes y familias de los establecimientos educativos, la colección de textos de matemáticas, lenguaje e inglés, los cuales responden a la diversidad y riqueza de nuestro país y se articulan con los referentes de calidad del Ministerio de Educación Nacional.

Estamos seguros de que este material, junto con las estrategias definidas por cada uno de los programas del Ministerio y las iniciativas que lideran los docentes y directivos docentes en las instituciones educativas, nos permitirán continuar avanzando hacia una Educación de Calidad para todos, hacia el fortalecimiento de los procesos curriculares en las instituciones y hacia la equidad social por la que hacemos equipo con las familias, docentes y, en general, con todas las comunidades.

De manera especial queremos invitar a los maestros a explorar este material y a trabajarlo junto con sus estudiantes y las familias. Estamos convencidos de que los docentes son los líderes de la transformación educativa y serán los protagonistas de este nuevo capítulo de la historia y del futuro de la educación colombiana.

Cordialmente,
María Victoria Angulo González
Ministra de Educación Nacional

Dear students,

Welcome, this is the Way to go!

The Colombian Ministry of Education, through its Programa Nacional de Bilingüismo, is pleased to introduce *Way to go!*, the series of textbooks created to support your English learning process for sixth (6th), seventh (7th), and eighth (8th) grades. With this textbook, you will be able to learn English in a fun and dynamic way, and to express yourself in English with your teachers, classmates, and friends. This material will guide you through innovative topics related to the Colombian culture and that in other countries by means of varied tasks and projects which integrate 21st century skills, created to prepare you for a globalized world.

“*Way to go!*” is an expression that means you have done something well and that you are proud of your progress. The Way to Go! resources will help you learn English in an effective way in and out of class:

1. **The student’s book:** for you to learn when you are in class (Please do not write on it, because other students will use this book next year)
2. **Your workbook:** for you to have extra practice in class or at home (Yes, you can write on it!)
3. **Audio tracks:** for you to practice listening on the Colombia Aprende website* at your own pace
4. **Interactive games:** for you to play and learn at the same time*
5. **Interactive/digital version of the materials:** for you to download or check online*

In this series, you will find four (4) modules that will help you learn English while you discuss diverse topics like culture, health, democracy and peace, environment, and global citizenship, among many more. These topics have been selected thinking about the next generation of Colombian people living in peace and connecting with each other in English.

We hope you enjoy learning English with your new textbooks, and that you are eager to see the English language as a tool that will open great opportunities today, and in the future.

Welcome to this new adventure of interacting in English with the world! This is the *Way to go!*

*You can find the digital/interactive materials of the *Way to go!* series on the Colombia Aprende official website: www.colombiaprende.edu.co

Participates in short conversations providing information about him/herself as well as about familiar people, places and events using simple phrases and sentences previously memorized. For example:

Anita: Hi, Luisa. Tomorrow we have our math test.

Luisa: That is true. I'm very nervous. I need to pass.

Anita: Why don't we study together?

Luisa: That is a great idea. When we finish, we can play some videogames to relax.

Anita: Ok. Come to my house after school.

Luisa: Ok. See you there.

2

Describes people, activities, events and personal experiences orally using simple phrases and sentences previously rehearsed with his/her classmates and teacher. For example, the student makes a short and coherent presentation on how to live in harmony in the classroom.

Good morning,
Harmony in the classroom is very important; I will share some ideas to help us do this. Respect the teachers, the classroom, other students and yourself. To show respect we can listen to others and take turns when we speak. It is also important to understand that people have different points of view. These ideas can help to live in harmony in our classroom.

3

Writes short and simple texts about familiar actions, experiences, and plans using a sequence of images and a pre-established model for the text. For example:

To keep a healthy life style, we need to take care of our body, mind and soul.

People need to do regular exercise and have a balanced diet.

People need to enjoy family and friends and learn new things to keep their mind healthy.

People also need to meditate and live with passion to have a long and healthy life.

4

Understands the main idea and details related to activities, places, and people in a short descriptive text through familiar words and phrases. For example, the student identifies information and details connected to place of birth and other places and activities mentioned in a biography.

Character	Mother Teresa of Calcutta
Name	Agnes Gonxha Bojaxhiu
Place and date of birth	Uskub, August 26, 1910
Contributions to humanity	Humanitarian acts
Year of death	1997

Mother Teresa of Calcutta

Mother Teresa was a Catholic nun born in Uskub, Ottoman Empire on August 26, 1910. This is now Skopje, the capital of the Republic of Macedonia. Her real name was Agnes Gonxha Bojaxhiu. Her father died when she was a little girl and her mother raised her. She decided to devote her life to God when she was very young. She became a sister of Loreto when she was 18 years old.

She is well known worldwide for her humanitarian acts. She created the organization of the Missionaries of Charity to help many poor, sick and needy people. In 1979, she received the Nobel Peace Prize for her hard work. After her death in 1997, the Catholic Church started the process to make her a saint. Today there are more than 4,000 nuns like Mother Teresa taking care of the poorest people in the world.

The student may require use of visual aids such as images or texts for comprehension. For example, when listening to the teacher describe the process of recycling, the student completes a diagram with missing information.

6

Gives and follows instructions, recommendations, and suggestions about topics related to his/her immediate context. For example, the student gives instructions on how to make a traditional dish.

1. Crack the eggs into a bowl with salt and pepper. Beat well with a fork.
2. Pour the eggs in a frying pan and spread them out evenly.
3. Add some grated cheese.
4. Fold it over in half and remove from pan.

7

Describes actions related to a subject in his/her family or school environment using simple sentences and images. For example:

We are destroying our planet. It is necessary that we make decisions to save it.

I will start with me. For example, I will take short showers to use water efficiently.

I will plant new trees in my mum's garden.

I will recycle paper, plastic and cans at home and at school.

In this way, I can contribute to save my planet.

How do our teenagers spend their free time?

by Consuelo Mejía

The Colombian Government is very concerned about how urban teenagers are spending their free time. Research shows that in cities many teenagers spend their time indoors, chatting on social media, watching TV or playing video games. These teenagers can have poor posture and they can also be depressed, because they don't spend enough time being active in the fresh air.

In contrast, most teenagers in the countryside spend their free time doing physical activities and playing outdoor games. They also help their parents; they do chores, feed the animals, and milk the cows. Because these teenagers have an active life-style, they are also fitter and don't have so many health problems.

5. Write » Follow the instructions (1–5) and design a daily activity planner to show what you do in your free time every day.

- Draw a chart like the one below on a large sheet of cardboard.
- Cut out pictures from magazines or draw your own. Be creative.
- Write the activities you're going to do each day. Use different colours for indoor and outdoor activities.
- Put the chart on your bedroom wall.
- Count how many indoor or outdoor activities you do in a week.

At 6 o'clock I have breakfast, then, I ride my bike to school and at 7 o'clock I start classes! After school, I'm really tired, so I have a rest. But in the afternoon, around 3 o'clock I feel more motivated and ready to study, so I do my homework 😊. I usually finish my homework about 5 o'clock, and because I'm usually still feeling energetic, I go to basketball practice with my school team. I love playing basketball, but I'm disappointed if we lose; but then I go for a walk and I always feel better!

Stand up to bullies! by Vanessa M.

Some of my classmates laughed at me because I prefer to spend my time with boys more than with girls. Sometimes, they were aggressive towards me. One day, during the break, one of my classmates pushed me. So, I turned around and asked her 'What exactly is your problem? You should apologize to me!' She saw that I was mad, and that I wasn't afraid of her, so she stopped bothering me. The next day, she came up to me and said 'I'm sorry. I was very disrespectful'. And I accepted her apology.

When you feel bullied, stand up and demand respect. We all deserve respect, no matter what. Be brave and strong. Don't let anybody hurt you. Say that you're sorry when you hurt someone. But never use violence – violence leads nowhere.

1. Why did Vanessa's classmates laugh at her?
2. What happened to Vanessa during the break?
3. What was Vanessa's reaction to the bullying?

5. What did the bully say when she apologized to Vanessa?

Bullying at Schools is on the Increase

Bullying is a problem that is on the increase in schools. In general, bullies are aggressive, physically and verbally abusive and offensive to their victims. At school, they usually call defenceless students horrible, rude names, they take their things without permission, and leave offensive messages on their desks. But one particular area of bullying that is seriously out of control is cyberbullying. Bullies use social media and messaging apps to offend masses of students with one push of a button!

If you want to stop bullying, it's very important to stay calm and not respond with violence. Also, be careful about the information you share on social media, and don't do things you aren't comfortable with or don't agree with.

2.  **Speak »** Read the article in exercise 1 again. Discuss the questions (1-2) with a partner.

3.  **Read »** Read the advice about how to respond to bullying and complete the mind map with the recommendations.

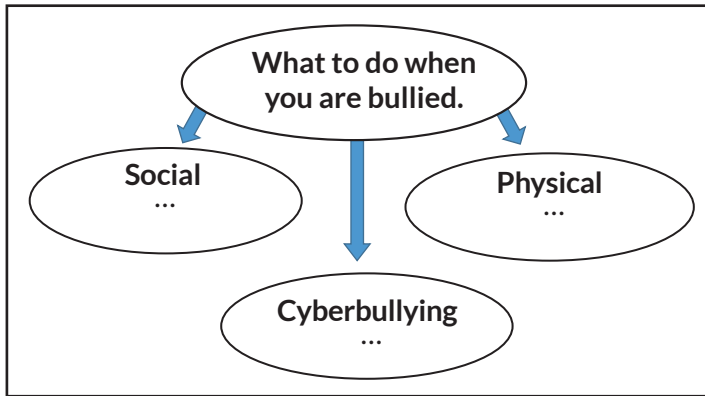

What to do when you are bullied

There is no magic spell to stop someone bullying you. But if you are bullied, then you should always keep calm and not respond violently. It also helps if you can identify the type of bullying and act accordingly.

Social Bullying: If you are a victim of social bullying, you should look for new friends and new activities. Doing exercise, for example, helps you to relax. Also remember, you have to tell an adult what is happening to you.

Cyberbullying: Give your parents your passwords for all your social media accounts. Don't post personal information, and be careful who you add or accept as contacts.

Physical Bullying: Stay away from the bully, and talk to your parents and teachers. Never respond with violence.

 We feel horrible and sad.
 I don't know about you
 But I don't want to be bad.
 Bullies are aggressive,

 They put honest, happy people
 In a really bad mood.
 Try to be polite
 And learn respect.

A Sloth Who Lives in a House

I'm a sloth living in a human house. I've **been** in this house for about six months now and it's **been** extremely difficult for me. I **can't** remember how I got here. It's true that the humans in this house seem to enjoy my presence, but I miss my home, the forest, very much. When I'm there, I **can** hang from the trees for hours and hours. I **can** even change trees when I want to – not that I change trees often, but I have the option. Here there isn't anything to hang from. In the forest, I **can** always find leaves to eat; here they give me things I don't like very much. They **shouldn't** do that because it makes me ill. At home, I enjoy hanging out with my friends. We don't do much, but it's fun. Here, these little humans think I **can** play their games. They don't know it's difficult for me to move around like that. I **can't** continue living here any longer – I **must** go home! I **have thought** about how to escape. What **should** I do?

People **shouldn't** have wild animals as pets.

Yes, we **must** protect wild animals and save their natural habitat.

³Mr Martínez,
Ministry for the Environment,
Bogotá

⁴Dear Mr Martínez,

⁵I am writing this letter to you because many of our native animals are endangered, especially the sloth, and we are responsible for this.

First of all, people are cutting down forest trees, so sloths are losing their homes. In addition, people are buying sloths as pets. This means sloths can't live in their natural habitat. If this continues, soon we will not have any sloths in our country. This is going to affect other species, our biodiversity and eventually, it will affect us personally.

⁶Please, Mr Martínez, you must help the sloths and prevent their extinction.

⁷Sincerely,

 • Creative Thinking

Can you think of other ways to save water? **Brainstorm** ideas in groups.

Water Is Life

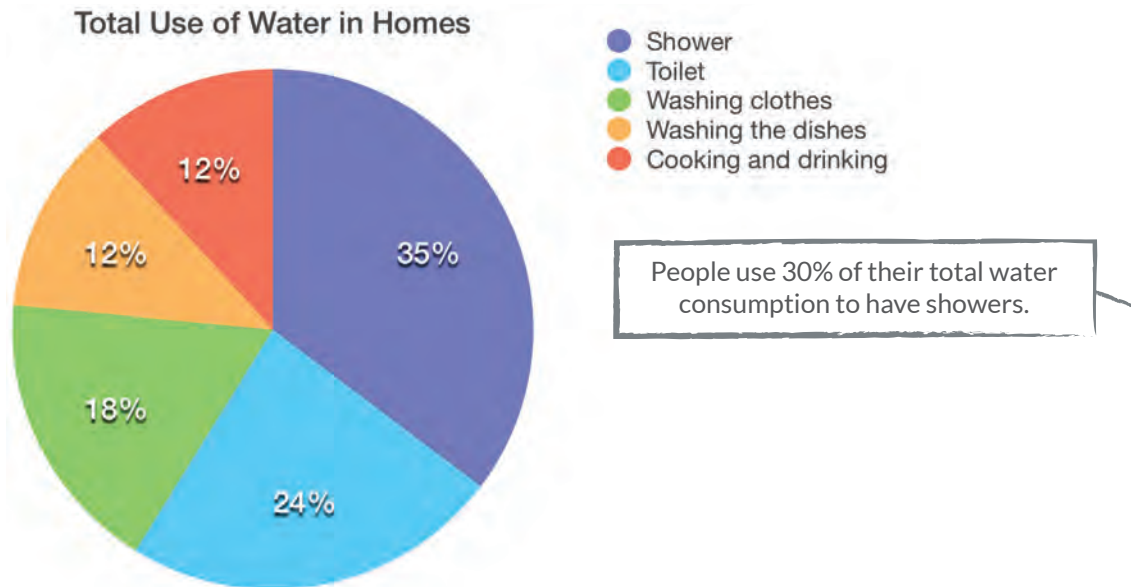

All living things, humans, plants and animals, need water to survive. People need water for drinking, to produce food, clothing, energy and technology, and we also need water to stay clean and healthy. We use a lot of water, but unfortunately a lot of people haven't learned how to save water and use it efficiently. Did you know that we use more water for showering and washing our clothes than we do for cooking and drinking? Have you forgotten that a third of the world's population doesn't have access to freshwater? We must all learn how to use, share and conserve water.

Tips to Save Water

- a. Collect rainwater to water the plants in your garden.
- b. Only flush the toilet when you need to. And don't throw tissues, etc. in the toilet. Put them in the bin!
- c. Only wash your clothes once a week.
- d. Turn off the water when you wash your hands or face and when you brush your teeth.
- e. Have a quick shower not a bath – five to ten minutes is enough.

1. All life on Earth *needs / doesn't need* water to survive.
2. People use water for *a variety of purposes / only one purpose*.
3. *More / Less* water is used for cooking and drinking than for showering and washing clothes.
4. *One third / Two thirds* of people have access to freshwater.

6.  **Write »** Look at the pie chart. Write about the amount of water people use.

7.  **Read »** Read the text and answer the questions (1–6) so they are true for you.

Nature Gives Us More than We Think.

Have you ever thought about all the benefits we get from nature? Besides using natural resources for food, clothing and fuel, we can use them for several other purposes.

Do our quick test to see how nature benefits you.

1. **Have you ever meditated** outdoors, for example in your garden or a park?
Yes, I have. / No, I haven't.
2. **Have you ever been** trekking in the mountains?
Yes, I have. / No, I haven't.

1.  **Read »** Read the text and complete the graphic organizer (1–10).

Natural resources come from nature and humans cannot create them. There are two categories: renewable and non-renewable.

Non-renewable resources cannot easily be replaced: fossil fuels, minerals and soil.

2.  **Write »** Find five natural resources and three things they are used for. Complete the sentences (1–3).

We all know how useful animals are; they provide us with food, and we use their skin to make clothes. People have also used animals for transportation for centuries. Before the invention of cars and planes, donkeys, horses, elephants and camels transported people and goods. And we shouldn't forget that some animals have always occupied an important place in our hearts as pets. The most common pets have always been dogs and cats. But, nowadays, many people are buying exotic wild animals as pets. And in circuses many wild animals live in horrible conditions just for our entertainment.

- When we use **The Three Rs**, we need fewer natural resources to produce or manufacture new items.
- When we follow **The Three Rs**, we throw away fewer things; this helps to reduce the amount of greenhouse gases we release into the atmosphere.

Study Tip

Identifying how words are formed helps us to learn new vocabulary: *re* means *again*. So *rewrite* means *to write again* and *redo* means *to do again*.

2.  **Listen »** Listen to people talking about The Three Rs. Complete the statements (1-3) with *should* or *shouldn't* and say which R they are talking about.

3. You ... separate your rubbish and you ... buy products made from recycled materials. Speaker 3 is talking about ...

3. Write» Write a paragraph giving recommendations about how to reduce, reuse and recycle rubbish.

Reducing: I think we all have too much stuff! We should buy fewer things. Nobody needs ten pairs of shoes or ten different bags – it’s ridiculous! And also we shouldn’t buy things that are packaged in unnecessary bags and boxes. Don’t buy apples that are in a plastic container and then put them in another plastic bag!

4. Read» Read the leaflet and complete the chart.

Save our forests!

We **should** recycle. Let’s start with paper!
 Paper comes from wood and it’s recyclable. So, if we recycle paper, we save trees, reduce the amount of rubbish we produce and save energy. Recycle newspapers, office paper and magazines. If possible, take them to a recycling centre: find out where the nearest one to you is.
 Recycled paper can be made into newspapers, telephone directories, paper towels and egg boxes.

Protect our environment!

We **should** also recycle plastic bottles.
 Plastic comes from oil, which is a fossil fuel and produces a lot of pollution. If we recycle plastic bottles, we reduce pollution, reduce rubbish and save energy.
 Recycled plastic bottles can be made into lots of different things: new bottles, boxes, and they can even be made into T-shirts!
 We can also reuse a plastic bottle again and again: refill it with water or juice, don’t just throw it away.

Object	Comes from	Can be recycled and made into	Benefits

5. Speak» Look at the Rubbish Diary and discuss with a partner what the items are made of: paper, glass, metal or plastic.

On Monday, the girl threw away a shoebox. Shoeboxes are made of paper.

Tuesday	Some old CD covers

- c. Then, you buy the products made from recycled materials. ...
- d. Next, the recycling company empties the bins and takes it all to a recycling centre. ...
- e. Finally, the process starts again: your rubbish can be recycled often. ...
- f. The second thing to do is put your separated rubbish into the correct recycling bins for collection. ...
- g. After that, the new products go to shops. ...

7.  Write »

Work with a partner and write a chant that encourages people to reduce the amount of rubbish they produce.

If we want to help our world,

8.  Speak »

We can recycle the plastic bottle and make plant pots. It's easy, you just cut the top off the bottle, put some soil and seeds in it and wait for the plants to grow.

But don't forget to water them!

- B. The number of people in the world is increasing and the climate is getting hotter and drier. So, we will need more water to cool down our homes and workplaces and to grow plants for food.
- C. Human activity is polluting our water. Toxic emissions from factories and cars are released into the air, then fall to the ground when it rains and go directly into our water sources.

Living Water!

In 1994, Japanese researcher and author Masaru Emoto decided he wanted to study water in more detail. So, he took water from different places, for example, city tap water, and water from rivers and lakes that were near big cities, and froze it so he could look at the ice crystals it formed under a microscope in a laboratory. Then, Emoto also collected and froze water from natural places where there wasn't any pollution, and he also studied this frozen water under a microscope. When he compared the results, they were surprising: the ice crystals formed by the city water were ugly, but the ice crystals formed by the natural clean water were beautiful.

So, Emoto decided to do an experiment to see how water is affected by its surroundings. He put some water in his laboratory and prayed and played beautiful music there, and he also praised to the water. He observed that the ice crystals the water formed were very beautiful. Next, he reversed the experiment and said horrible things to the water and played really loud aggressive music: the ice crystals that formed were horrible and distorted.

Emoto was amazed by the results and published lots of books showing the different ice crystals. Check them out and see what you think!

Energy comes from **renewable** and **non-renewable** sources. Non-renewable resources that give us energy are **oil** (petroleum), **natural gas** and **coal**. We process oil into fuels to run cars, lorries and airplanes. We use both natural gas and coal to heat homes and make electricity. Among the renewable resources that give us energy are **sunlight**, **wind** and **water**. People use **sunlight** for several things, from drying clothes, growing food, heating water and cooking, to generating electricity. **Wind** turbines use **wind** to make electricity. The **water** in rivers creates electricity.

Our School Energy-Saving Blog

By Ricardo García
15 September 2018

Hi, everyone!

There are loads of things we can do to reduce our daily energy consumption. I've decided to create this blog for us so that we can share our ideas.

Here are some of mine:

- You **mustn't** leave TVs, computers or any other electronic devices on when you aren't using them.
- You **mustn't** keep electrical devices plugged in if you aren't going to use them for a while.

Anyway, guys, I'm really looking forward to reading your comments ;)

Hi, Ricardo! Some great ideas! Here are my recommendations for saving energy when you use a fridge:

- You **mustn't** put too much food inside.
- You **must** only open the door when you know what you want to get from the fridge.
- You **mustn't** put hot items in it.
- You **mustn't** keep the fridge temperature too low.

Hope these recommendations are useful. Bye 😊

Hey, what's up? Welcome to my live vlog feed *From Colombia to the World!* Today, I'm visiting the ¹... city of Cairo in the ²... country of Egypt. Cairo is the capital of Egypt and is located near the ³... Pyramids of Giza.

Japanese is very complicated to learn, but my teacher says it’s not impossible. I don’t speak it very well yet, but I’m trying to learn as fast as I can.

The Japanese are kind and very respectful. Especially the children, who are always very polite to people who are older than them. People are also very helpful and they like meeting new people. I’ve already made some new friends!

Anyway, it’s time to go to bed now. But tomorrow, I’ll tell you about all the amazing technology I’ve used over the last few months, for example, our fridge talks to us and tells us what food we need to buy!

1. Camila has lived in Japan for a year.
2. She’s found it easy to learn Japanese.

The Day of the Dead

The Day of the Dead is a traditional Mexican celebration, when people honour and remember their dead family members. Mexicans have celebrated this day for thousands of years, and it dates from the time of the Aztecs. People celebrate the Day of the Dead on 2 November, two days after Halloween. On this day many families go to the cemetery: they clean the graves and decorate them with flowers, candles, and photos and food, and they tell their favourite funny stories about the dead person. *La Calaca*, which is a skull, represents death and is usually made from wood or stone. You can see *calacas* everywhere on the Day of the Dead, and many people also give sugar *calacas* as presents on this day. There are also lots of parties on the Day of the Dead. Many Mexicans paint their faces, wear masks and fancy dress costumes and dance and sing in the streets.

3.  **Speak »** With a partner read the text and discuss the importance of festivals and celebrations.

Festivals and celebrations are very important for the people who live in the towns and villages where they take place. These events teach us about how people lived a long time ago and what things were important to them, for example, famous historical events, like battles and people, like kings and queens, or religious events. Some festivals have survived through the ages and were first celebrated by ancient cultures and civilizations. Festivals and celebrations are opportunities to remember our history.

Every culture has a special way of celebrating these events. You may not like some of them, or you may think that others are strange or boring. But in the end, it's important to remember that celebrations offer opportunities to learn about and respect other cultures, and to enjoy all the activities they have to offer. Festivals and celebrations are occasions to be happy!

Hello! My name is Peter McLeod and right now I'm visiting Zimbabwe, a beautiful country in south-central Africa. The country has many different, delicious, traditional dishes. Many dishes are made with cornmeal. Other common ingredients include peanuts, beans, squash, avocados and cucumbers. People who have visited Zimbabwe are surprised to see markets that sell caterpillars and ants. I have tried them and I like them! They have a buttery taste. While I was visiting the south of Zimbabwe, I tried *Mapopo*, a sweet made with papaya, lemons and sugar. It is very tasty! It is common in Zimbabwe to wash your hands in a small dish before eating. During special celebrations like Christmas, vegetables and meat are served. It's a wonderful country with a variety of food!

This text is about athletes. Read it quickly. Check any difficult words.

Every athlete has a different day, full of different training activities. An athlete's lifestyle, however, often has similar routines for good health. Many athletes wake up early. They often do some training in the morning before breakfast. Later in the morning, many athletes have heavy training. After a mid-morning break, athletes often have a technical training session with their coach. For lunch, most athletes need a good balance of food. This includes protein, good fats and carbohydrates. The athlete's diet should be mixed. It can include dairy products, meat and fruit and vegetables. Most athletes don't eat sweets or bad fats. Most athletes don't drink fizzy drinks. It's important that athletes drink a lot of water after lunch. This keeps them hydrated for training in the afternoon. Training finishes in the early evening for many athletes. Many athletes go to bed very early. They normally need 8 hours of sleep every night.
